DETAILED ACTION

Allowable Subject Matter

1. Claims 10-16, 21, 23, 25, 27, and 28 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter (these same reasons were set forth in the previous Office action and are reiterated herein):

Independent claims 14 and 28 each recite, among other features, that the stress applied to the elastic body is not less than 980 kPa and not more than a force at which the elastic body maintains elasticity of not less than 95%. JP 11-49217 does not teach or fairly suggest that the pressure applied to the elastic body by the spacer is within this range. Accordingly, the claims are allowable.

Conclusion
